Work Experience

Nock Trade

05/2025—present

hloth.dev/showcase/nock-trade

I designed a crypto exchange from scratch using SvelteKit, created UI kit using shadcn/ui based on bits-ui, deployed backend consisting of micro-services and configured two testing environments for zero downtime updates.

Moreof.me

10/2024—02/2025

hloth.dev/showcase/moreofme

I created a mobile web app with Vite & SvelteKit that can compress videos and images inside of browser, implemented real-time statistics with TimescaleDB and deployed serverless GPU render workers with Google Cloud Run.

Freelance

11/2021—10/2024

hloth.dev/showcase/x5-websites

I created and maintained two large projects powered by React and Next.js for 3 years: a darknet aggregator with micro frontends and a B2B platform with GraphQL & Docker developed in a mid-size team of devs where I mentored one

Soft Skills

Throughout my career I learned how to explain complex technical concepts in simple terms, write clear documentation, do code reviews, collaborate with product managers, designers and other developers.

I have a problem-solving mindset and can identify potential vulnerabilities, edge cases, performance issues and find creative solutions.

I prioritize ergonomic tools for maximum efficiency and accurately estimate task duration to meet deadlines while also maintaining code quality.

I'm open to learning and comfortable with change. I respect different perspectives and handle constructive criticism.

I absolutely do not tolerate any kind of discrimination and won't be able to work in a toxic environment.
